

EAR TUBE UNCLOGGING REGIMEN

- 1) This is a 10 day regimen
- 2) For the first 5 days, use 3% hydrogen peroxide (the brown bottle kind), 4-5 drops twice a day
- 3) For the second 5 days use the antibiotic drops (e.g. Ciprodex, Floxin) 4-5 drops twice a day

*If your child experiences pain after the peroxide use, switch to the antibiotic drops and complete the 1- day course with these drops instead of peroxide
